

SHERIFF ABDULLATEEF KEHINDE

Frontend Engineer · React.js · Next.js · TypeScript
abdullateefkehinde848@gmail.com | [Linkedin](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Engineer with hands-on experience building production React.js and Next.js applications, including full-stack e-commerce platforms with secure JWT-based authentication, real-time AI-powered interfaces, and booking systems with row-level security. Comfortable owning UI components end-to-end from REST API integration to state management to responsive, accessible layouts and collaborating with cross-functional teams to ship on schedule.

Frontend Developer (Intern) — Farmily Africa

Aug 2025 – Present

- ▶ Build responsive, accessible UI components in React.js, Next.js, and Tailwind CSS, collaborating with a cross-functional team to translate requirements into production-quality interfaces
- ▶ Integrate REST APIs and optimize frontend performance, improving load times and cross-device consistency
- ▶ Participate in feature planning and code reviews to maintain shipping velocity and code quality

Frontend Developer — Anabem

2025 – Present

- ▶ Translated stakeholder requirements directly into responsive, accessible UI components, owning the frontend build from scratch to launch
- ▶ Worked iteratively with business leads on UX and visual design refinement, increasing overall site quality and credibility
- ▶ Delivered a brand-aligned, performant site balancing design fidelity with technical constraints

PROJECTS

Sneaker Store — Admin Dashboard — React.js · TypeScript · Chakra UI · TanStack Query · Node.js/Express · MongoDB

- ▶ Built a production-style admin dashboard with product CRUD, server-side pagination with prefetching, and order management with delivery-status tracking
- ▶ Designed JWT authentication with short-lived access tokens and rotating, hashed refresh tokens, cutting a stolen token's usable window from 7 days to minutes and giving logout real effect on the server

Sneaker Store — Customer Storefront — React.js · TypeScript · Zustand · Paystack

- ▶ Built the customer-facing storefront for the same platform, with a Zustand-persisted cart and Paystack checkout, sharing a single backend with the admin dashboard

Hotel Management System — React.js · Supabase · Tailwind CSS

- ▶ Built a full-featured platform handling bookings, admin workflows, and customer management end-to-end
- ▶ Implemented authentication and row-level security via Supabase; designed a scalable, responsive UI

AI Chatbot Application — React.js · TypeScript · TanStack Query · Tailwind CSS

- ▶ Built an AI-powered chatbot leveraging the Hugging Face API with real-time response streaming
- ▶ Managed async API state with TanStack Query; built an intuitive UI with a notification feedback system

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript

Frameworks: React.js, Next.js, Tailwind CSS, Framer Motion, TanStack Query

Backend: Node.js, Express, MongoDB, JWT Authentication, Supabase

Tools: Git, GitHub, VS Code, Postman, Vercel, Netlify

Competencies: REST API Integration, Responsive Design, State Management, Authentication, Performance Optimization

EDUCATION

B.Eng. Electrical and Electronics Engineering

Jun 2021 – Jun 2026

University of Ilorin, Nigeria

AWARDS & RECOGNITION

MTN STEM Scholar — Awarded for academic excellence and innovation in STEM fields

IEEE Student Member
